

# How to collect a vaginal sample from home

Your home collection kit contains: (1) specimen bag, (1) test requisition form, (1) sterile swab and NEST® tube labeled with patient name and DOB, (1) pre-paid FedEx clinical return pak

**CIRRUSDX**

## Follow these steps:

<b>Check</b>	Make sure your information is correct on the test requisition form and Nest® tube.
<b>Write</b>	Write the date you collect your sample in the highlighted area on the test requisition form.
<b>Clean</b>	Thoroughly wash your hands.
<b>Remove</b>	Carefully remove the swab from the packaging without touching the soft tip.
<b>Collect</b>	(1) Carefully insert swab into vagina approximately 5 cm (2 in) past vaginal opening. (2) Gently rotate swab against the vaginal wall for about 10-30 seconds. (3) Break swab at the scoreline, place it into the supplied NEST® tube, and screw cap on firmly.
<b>Pack</b>	Place your sample in the specimen bag and close it. Put your folded requisition form in the outer sleeve and seal the specimen bag in the pre-paid FedEx clinical return pak.
<b>Send</b>	Call <b>1-800-GO-FEDEX</b> to arrange pick up of your sample. Or drop it off in a FedEx box or at a FedEx shipping center.*

\*Please note, samples shipped out on Fridays will be accepted for Saturday delivery and testing.
